The Death Positive Movement

Death Positive ≠ Positive About Death

It means being **willing to talk about it**

Talking about death doesn't kill you...

Let's Talk About it

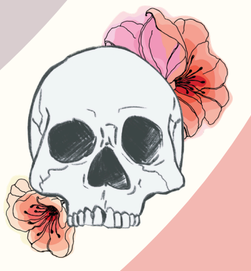

Conversations seniors are already having and why we **STILL** avoid it.

My _____ won't talk to me about it.

I don't know what to say.

I don't want to upset them.

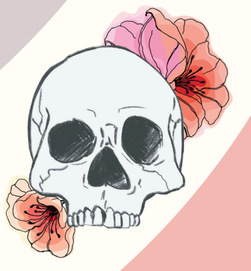

That feels too personal.

How to Practice the Conversation

- The Death Deck
- Death Cafe
- Death Over Dinner

You saw us! DEATH DOULAS

Your turn to start the conversation

- EoL Book Club

- Collect Funeral Song Request
- Celebrity Healthcare POA

Thank You!
